Most popular spot for a family photo

“Everybody wants the beach. The majority of family portraits you shoot are tourists. All local people may want at least one on the beach, but they change it up. Local people go all over the place.”

Best route to run

Hand in hand with history.

For generations, gracious hospitality and glorious history have been hand in hand at the Jekyll Island Club Hotel—at the center of Jekyll’s fabled Historic District.

**Landmark Visits.** In five distinctively historic settings, 157 guest rooms and suites await, including the Main Hotel, Annex, San Souci and the splendidly restored Crane Cottage and Cherokee Cottage. All complemented by beautiful courtyards, gardens and abundant recreation from croquet and pool to beach, golf and history tours. Premier meeting facilities and seasonal children’s program, too.

**Landmark Dining.** Dining is a cherished tradition here, from grand to casual. Enjoy alfresco dining at the Courtyard at Crane, located within Crane Cottage. And in the main hotel, the Grand Dining Room offers breakfast, lunch, dinner and our legendary Sunday Branch. We invite you to come experience a landmark.
